A general liability insurance certificate listing the railroad as additional insured and an independent policy of Railroad Protective Liability (RPL) in the railroad's name is required. All pipeline/wireline occupancy must adhere to A.R.E.M.A guidelines and specifications for materials and installation. Proposal and construction must be in accordance with railroad specifications, The National Electrical Safety Code (current edition), and any/all governing laws or regulations. Please note: Specifications furnished in the Application Package are offered for guideline only, the railroad reserves the right to approve/decline any application.
